

## TRIED TO SCALE THE BUILDING

### Exeter Man Full of Firewater And Fire Fighting

W. C. Corbett of Exeter, blew into town on Wednesday and this morning woke up on the safe side of a pine board at the City Hotel. The Exeter actor thought no relation to James J. the prize ring artist is no prize fighter, but on the other hand he claims to have been an all-around fire fighter.

Later in the afternoon he was in excellent trim for action and produced a stunt at Carli's stables on Congress street that certainly was amusing to a crowd who gathered watching his funny moves.

His first exhibition was that of scaling a building, and after showing his audience how the gypsies do it in Exeter, he climbed to the roof of

the night lunch cart nearby and again defied the flames.

Officer Shannon an old fireman himself, arrived to late to witness the work of one of Exeter's bravest but informed Corbett that the "all out" signal had been sounded and that he was working overtime. Corbett was more than a scaling ladder man and before retiring, tried to out-do the modern Sampson act by attempting to tip over a two horse wagon heavily loaded, which was standing in the yard. The officer thought that Corbett had worked hard enough for one day and invited him to the training quarters for a rub down and a rest.

Corbett agreed to quit but not till he had laid two hundred feet more hose. His photograph is in great demand today especially by the old time heroes of the Franklin Pierce Veterans Association.

## TWO HAD A CLOSE CALL

### Cargo of Pipe Shifts and Men Thrown to the Ground

Valentine A. Hett, the well known truckman had a narrow escape from serious injury this Thursday morning by being thrown off one of his truck teams at the junction of Market and Bow streets. The team was heavily loaded with piping and Mr. Hett and his assistant James Hennigan were sitting on a box placed on top of the pipe.

There is a steep decline at this place and as the team turned from Market street into Bow street, the pipe shifted and both men were thrown from their seat to the ground striking with considerable force.

Mr. Hennigan was the more fortunate of the two, landing on the lower part of his body and escaping with only a few bruises and a general shaking up. Mr. Hett struck on his head and was rendered unconscious. He was picked up and taken into the store occupied by the Scotch Woollen Mills Co., where it was found that he was bleeding freely from an ugly scalp wound. Dr. James H. Dixon, who happened to be in Holland's meat market at the time, of the accident, was called and after Mr. Hett had regained consciousness dressed the wound on his head. In addition to the scalp wound, it was found that he had strained the muscles of his back. After receiving treatment from the physician, Mr. Hett went to his home.

When the pipe shifted the horses attached to the truck became frightened, but only ran a few feet before coming to a standstill.

Those who witnessed the accident say that it was quite fortunate for Mr. Hett that he did not land on the loose rocks that are so plentiful in this part of Bow street leading to the ferry landing.

## MANY CRIMINAL CASES DISPOSED OF THIS MORNING

Good progress was made in the superior court this morning in disposing of several of the criminal cases and if the same continues the present session of court promises to be a brief one.

Richard F. Field of Candia pleaded guilty to an unlawful act and lascivious conduct. He was sentenced by Judge Wallace to not less than three or more than three years and six months at hard labor in State prison.

Steve Smith of Portsmouth pleaded guilty to an aggravated assault and was sentenced to be confined in the Rockingham county jail in this city for ten months and pay the cost of prosecution.

William Munn of Manchester pleaded guilty to the charge of larceny. His case was continued for sentence.

James Dunmore of Portsmouth pleaded guilty to being a tramp. He was sentenced to serve three months at the house of correction at Brentwood on an old complaint. The present case was continued for sentence.

Samuel Miles of Portsmouth charged with the larceny of \$27 from Hiram Gardiner of Bow street, was given a jury trial. Miles not only testified in his own behalf but acted as his own counsel, making an argument in his own behalf that lasted nearly three-quarters of an hour. His argument however, did not seem to have much effect on the jury, who after being out for ten minutes, returned a verdict of guilty. During his trial Miles took exception to some of the evidence and the court allowed him ten days to file his exceptions.

Chief Justice Robert M. Wallace, has assigned Attorney Charles H. Batchelder as counsel for Albert Hunkton, who is indicted on the charge of horse stealing at Barrington.

At noon court took a recess until 2 o'clock when the action of the state against William Morphy charged with the larceny of a watch from the home of Mrs. Nellie McCarthy on South road was taken up.

## ATLANTIC SHORE CAR AND AUTOMOBILE IN COLLISION

A large touring car owned by Albert Hislop, the well known stable man, was badly wrecked late Wednesday evening in Rice's Hollow, Kittery by being struck by a car of the Atlantic Shore Street railroad.

The car driven by John Hickey, left there shortly after 11 o'clock to take a party to the navy yard and the driver knowing that the highway was being repaired in Rice's Hollow took the street car track after passing over the railroad bridge at the top of the hill. He had proceeded only a short distance when he found that the street railroad company had also torn up their road bed and his car became stuck so that he could not extricate it. The driver assisted by the occupants immediately set about to jack the car so as to get it off the railroad track. Hearing the late car approaching, Mr. Hickey, claims that he ran to the top of the hill and shouted to the motorman to stop his car, but he was told to "get the h--- out of the way."

The electric car continued down the hill at a sharp rate of speed and crashed into the touring car making a wreck of the body of the car, as well as the running gear.

The car was a Cadillac, valued at \$1900 and practically new.

## MOTHER NOT AT FUNERAL

Mrs. Keefe Seems Not to Realize Her Grave Position

Bath, Me., Oct. 25--The funeral of Martin Howard Keefe, the 3-year-old child of Mr. and Mrs. Martin Keefe, of whose alleged murder the mother is charged took place at the rooms of Coroner Curtis this morning. It was attended by E. W. Brigham, attorney for Mrs. Keefe.

The mother, who is in a cell in the county building, did not attend the funeral nor see the child prior to its burial. The service were conducted by Rev. N. B. Cook, pastor of the Beacon street Methodist church.

William Corr, who was with Mrs. Keefe a part of Friday evening, it is said, was in conference with County Attorney Stetson today and gave some evidence, but refused to tell publicly where he went after leaving Mrs. Keefe the night of the drown-

The authorities are now awaiting the result of the examination of the stomach and other organs of the Keefe boy which County Medical Examiner Donnell sent to Bowdoin

## MADE AN OFFER

Hebrews Confer With Methodist Committee Last Evening

On Wednesday evening a committee of the Temple of Israel consisting of Morris Port, Abraham Shapiro, Samuel Shapiro, Nathan Levine and Samuel Hos met a committee representing the First Methodist church in reference to the purchase of the brick building of the First Methodist church on State street for a synagogue and an offer of \$7000 was made for the property.

While the conference between the two committees was of a quite lengthy nature, no agreement as to sale was made. It is said that those representing the Methodist society place a larger value on their property.

If the property is sold the actual transfer will not come until next summer. At that time the Methodists expect to have a church building erected on Miller avenue opposite the H. Fisher Eldredge property.

# CITY COUNCIL HAS A SHORT SESSION

## Mr. Charles F. Shillaber Out of Board of Public Works--Resignation Ac- cepted--Routine Work.

The monthly session of the Mayor C. M. Rand, Richards avenue; Geo. and Council was held on Wednesday evening, with very little business for them to consider out of the ordinary routine work.

The resignation of Mr. Charles F. Shillaber as a member of the Board of Public Works, was received by the Mayor and read. Mr. Shillaber stated that while he deeply appreciated the honor the Council had given him of asking him to consider his former resignation, he was forced now to ask that his resignation be accepted to take effect at once. Increase of business interests made it impossible to give the required time. The resignation was accepted.

Mayor Badger stated that the vacancy could be filled by appointment by the Mayor with the confirmation of the Council if the resignation came in before Nov. 1, and as it was so near the date provided in the charter, that no appointments could be made he had decided not to make any appointment but to allow it to go before the coming city election.

An adjourned hearing on the Rockland street matter, was continued as the Committee to award damages asked for further time.

The petition of Joseph Greenberg and James Goldberg, for a first class junk license, was granted.

A petition of Charles W. Dennett and others for a light on School street, was referred to the committee on Street Lighting.

Petition of Syden Bros. for a sidewalk extension along Green street to their plant was granted.

A petition of Miss Claire George, to enter her property on High street, with the Hanover street sewer had been filed and she had paid the entrance fee, that had been turned into the treasury. Since then it was found that there was no sewer on Hanover street and she withdrew her petition, but it required a vote of the Council to refund the money. This was taken.

The following petitions were referred to the Board of Public Works. Those on Richards avenue, it was explained would not interfere with the pavement, as the Board had laid the connections into the side walks.

To enter sewers: Jacob Gegal, Hancock street; F. L. Wood, Wentworth street; Charles M. Rand, Richards avenue; C. H. Holmes, Hanover street; A. W. Berry, Hanover street;

To repair drains: Portsmouth Heating and Plumbing Co., on Hancock street. P. D. Shea, on Fleet street. P. D. Shea on Rockingham street. W. F. Kiernan on Water street. New England Telephone company to repair conduit on Hanover street.

To encumber street for building purposes: W. F. Kiernan, Liberty street; F. R. Spinnay, Pleasant street.

Councilman Littlefield, offered a resolution authorizing the Committee on Fire Department to expend \$5.00 to take the Chief Engineer and committee to Dover to inspect a pair of loading skids.

Councilman Leary offered a resolution to install the necessary fixtures in ward two ward room to conform with the caucus law. It was passed.

Councilman Leary, offered a resolution that passed authorizing the Mayor to appoint two members of the Council with him to consult with the Boston and Maine railroad, regarding crossing gates at Bartlett street, and if the railroad did not act at once to take the matter up with the Public Service Commission. The Mayor appointed Councilmen Leary and Clark.

A communication was received from the Board of Public Works, asking for an additional appropriation for street department as follows: Sewers, \$1,000; Sidewalks, \$200; Parks, \$400.

It was explained that the extra cost of laying the sewers on the street that were to be paved and several additional sewers that had to be installed to conform with the laws, made the short. The sidewalks was due to the slowness of the abutters paying their share of the new sidewalks.

Councilman Hislop moved that it be put on the table, but the motion was lost. After Mayor Badger had explained the great need of the money at this time, the resolution passed. During the argument Councilman Hislop offered to take the Council on a joy ride about the city in automobiles, to inspect the work being done.

The Board of Public Works asked for a transfer of \$7,000 to operation expenses to carry out some work. The additional cost due to the drought, and the new water supply, with the temporary station at Fountain Head, made the department short of funds. The transfer was ordered.

# STARS OF POWERFUL BROWN ELEVEN, WHO WILL TACKLE HARVARD MEN, AND SCENE IN PENN-BROWN GAME

PHOTOS BY AMERICAN PRESS ASSOCIATION

Cambridge, Mass., Oct. 26.—Brown and her elusive opponents of the forward pass will come stadiumward Oct. 28 fresh from their triumph over Pennsylvania and on the lookout for another victim. There are many who believe that a mistake was made when the Brown team was engaged so early and that the want of judgment will prove the undoing of the big Harvard machine or at least dash to the ground Crimmon's hopes of keeping her goal inviolable.

Sprackling to pull a bit of gallery work than start and Ashbaugh will be watched pretty closely, but are very apt to be as such not figure. Team work is a fetish with the forward pass as they with them. As a result Brown is to be against Pennsylvania unless day playing more as a unit than any other eleven in the east. The probable phase of the present day football. Nothing that looks promising along yard Oct. 28; Adams, left end; Kratz, left tackle; Kuyp, left guard; Mitchell, center; Goldberg, right guard; Bartlett, right tackle; Ashbaugh, right end; Sprackling, quarterback; the individual members of the machine would rather give up a chance right halfback; Jones, full back.

The first report of Auditor Murray brought up the question of the bills of the Board of Health, for inspection of cholera suspects. It was in a bill of \$65 submitted by Dr. T. W. Luce, for supervision of certain immigrants. He was ordered to do the work by the Board of Health and they approved his bill. With the items was an opinion of City Solicitor Emery that the bill was legal and should be paid. Auditor Murray stated that his predecessor had refused to approve a like bill and he submitted it to the Council.

Mayor Badger stated that this matter had been before the Council before in the bill of Dr. G. E. Johnston for similar work and it was ruled that as City Physician he could not draw any more pay under the city charter.

Dr. Johnston, chairman of the Board of Health, was present and explained the bill. He said that this was one of many such bills ordered by the Board of Health, and he estimated the total sum would be about \$200. He stated that after his bill had been rejected, the Board had authorized other physicians to do the work and they would charge the regular fee. The work was ordered by the State Board of Health, who worked in conjunction with the National Board to prevent the spread of cholera. When people came from the cholera infected district, they were allowed to land after inspection but the government sought to keep track of them for a short time. With this in view they notified the State Board of Health, and they in turn notified the Boards of the cities and towns they went to. All such people were looked up and were kept under supervision for a certain period. The State Board claimed that it was not the duty of the City Physician but the Board of Health could appoint anybody they desired and the city council has to pay.

On motion the bill was ordered paid.

The Auditor's report of bills and the pay roll for November were read and disposed of.

Adjourned until Nov. 22.

## GOES TO THE CHAIR

Silas H. Phelps to Be Executed Week Beginning Dec. 31

Greenfield, Mass., Oct. 25.—Silas H. Phelps of Monroe Bridge, who on June 12, 1910, shot and killed Deputy Sheriff Emmet P. Haskins, will pay the penalty for his deed in the electric chair at Charlestown State prison during the week beginning Dec. 31. Judge Fessenden, in the Franklin superior court sentenced the men to death this afternoon and set that date.

Before sentence was imposed, Phelps was given an opportunity to address the court. He reiterated his protestations of innocence. Attorney William A. Davenport, representing Phelps asked the court to set the date as late as possible.

In imposing sentence, Judge Fessenden paid tribute to Haskins as "faithful officer killed while in the performance of his duties."

Phelps will be kept at the Greenfield jail until ten days before the time set for his execution.

## A SMALL MAN DEAD

Walter Freeman, Aged 36, But Three and One Half Feet Tall

Barre, Vt., Oct. 25.—Walter Freeman, who although 36 years of age, was but three and one-half feet tall, died today of acute indigestion. Freeman weighed fifty-nine pounds, and is said to have been the smallest man in the state. He had received many flattering offers to appear upon the stage as a lilliputian, but preferred to remain on the home farm. He has three sisters and two brothers, all of whom, as well as his parents, are of normal stature.

## PROMINENT MOTORIST KILLED

## Samuel M. Butler on the Glidden Tour Crushed When the Car Overturned.

Tilton, Ga., Oct. 25.—Samuel M. Butler of New York city, one of the best known motorists in the country, was killed near here this morning, in an accident in which the Glidden tour car in which he was riding was overturned. P. J. Walker of San Francisco, one of the most prominent motorists on the Pacific coast and referee of the Glidden tour, was seriously injured and his wife sustained a broken arm. Mr. and Mrs. Walker are at the Tilton hospital. The accident was caused, it is reported, by a break in the steering gear of the car, which was wrecked. Mr. Butler was crushed under the car.

Mr. Butler, who was known in motoring circles throughout the United States as "Sam" Butler, had long been connected with motoring. He was for years the secretary of the Automobile Club of America, a position which he resigned two or three years ago to accept the important post as chairman of the Contest Board of the American Automobile Association. As chairman of the Contest Board he had authority over every motor car competition, whether racing, touring or reliability held in the United States. Mr. Butler also had a wide acquaintance in motoring circles abroad. He was traveling on the present tour in his capacity as chairman of the Contest Board. Mr. Butler is survived by a widow and two daughters, who live in Brooklyn.

Mr. Walker is not well known in the East. He is president of the California State Automobile Association and Pacific Coast representative on the contest board of the A. A. A. He accepted the invitation to referee the present tour, in part that he might bring before the motorists the projector transcontinental tour in 1915 in connection with the Panama-Pacific Exposition.

The accident today is the second in which Mr. Butler and Mr. Walker have been during the tour. A week ago yesterday, while traveling through Virginia, their car sidwiped a telegraph pole and they had a narrow escape. At that time Governor Hoke Smith of Georgia and Charles J. Glidden of Boston were in the car.

## EXETER

If Secretary Meyer carries out his intention to abolish the Sackett's Harbor navy yard, located on a bay of Lake Ontario, Mrs. A. H. Mrs. Metcalf succeeded her late husband in this office in March, 1906, and she is not only commandant of the yard, but captain, engineer-officer, head of the bureau of construction and repair, paymaster, commandant of marines, and ordnance officer as well; in fact she is the only employee of any kind connected with the yard, which is the smallest of its kind in connection with our navy noted for two historic events. It was there that the hulk of the old New Orleans, a ship that was never finished was exhibited for more than half a century, and Sackett's Harbor is also the place where chloroform was invented.

## NO CASCARET USER EVER HAS HEADACHE

A 10 Cent Box Will Keep Your Liver, Stomach and Bowels Clean, Pure and Fresh for Months

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines instead of being cast out of the system is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Salts, cathartic pills, oil and purgative waters force a passageway for a day or two—yes—but they don't take the poisons out and have no effect upon the liver or stomach.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means inside cleanliness and a clear head for months. Ask any of the millions of Cascaret users if they ever have headache.

## RED CROSS SEALS APPROVED

Active Campaign to Sell Seals Will Not Begin Until Thanksgiving

Postmaster General Hitchcock has given formal approval to the use again this year of the Red Cross seal, navy likewise passed upon the new design for the stamps. Plans for the

distribution of the stamps during the holiday season in the interest of the crusade against the white plague are being made. An active campaign to sell the seals will not be begun, however, until Thanksgiving.

The National Anti-Tuberculosis association will have charge of the entire work this year. Agencies will be established in every state and territory in the United States. Last year \$400,000 was realized from the sale of seals in the United States. About \$2100 was received in Newark. An effort will be made this year to realize \$1,000,000.

The new seal is drawn from a new design by an artist in Washington. In the lower right hand corner appears a snow covered house with a pine tree, snow covered, in the background. The scene is at night and the windows are lighted. In the upper left hand corner will appear a small red cross. The entire design is enclosed within a heavy red circle, the year being expressed in Roman numerals. The only other words contained on the seal are "American Red Cross, Merry Christmas, Happy New Year." The corners of the seal, which will be square, are in white thus giving the appearance of a circular seal when affixed to letters and packages.

## FOUND AND LOST GOLD.

General Sutter Discovered the Precious Metal in California.

"It is not generally known," said a mineralogist, "that the discoverer of gold in California was a Pennsylvanian and at one time a resident of Philadelphia. This distinguished pioneer lies buried in the soil of Pennsylvania almost forgotten. He was General John A. Sutter, a Swiss, who emigrated to Philadelphia in 1834 and became a citizen of the commonwealth. His grave is in the Menonite burying grounds at Lititz, Lancaster county, in which village he spent the last years of his life."

"General Sutter was born in 1803 in Baden, Germany, near the borders of Switzerland. Upon his arrival in this country he spent some time in Philadelphia, subsequently removing to the vicinity of Lititz, where, in the midst of relatives, he engaged in farming. Possessed of a roving nature, however, it was not long before he returned to explore the great unknown land beyond the Rockies. After many privations he reached California some time in the early forties and staked a claim. It was in the fall of 1848, after a heavy rain, that, attracted by yellowish deposits in a small stream, he made his great discovery of the precious metal. The news of his find spread rapidly, and the following spring the great rush from the east began.

"General Sutter amassed a considerable fortune through his gold diggings, but lost most of it through unfortunate speculations. He returned to Pennsylvania in 1871 and spent his declining years in retirement, living on the pension of \$250 a month voted him by the California legislature. He died June 18, 1899. Two of his publishers were Generals John C. Fremont and Ambrose E. Burnside, who had been his friends in California."—Philadelphia Record.

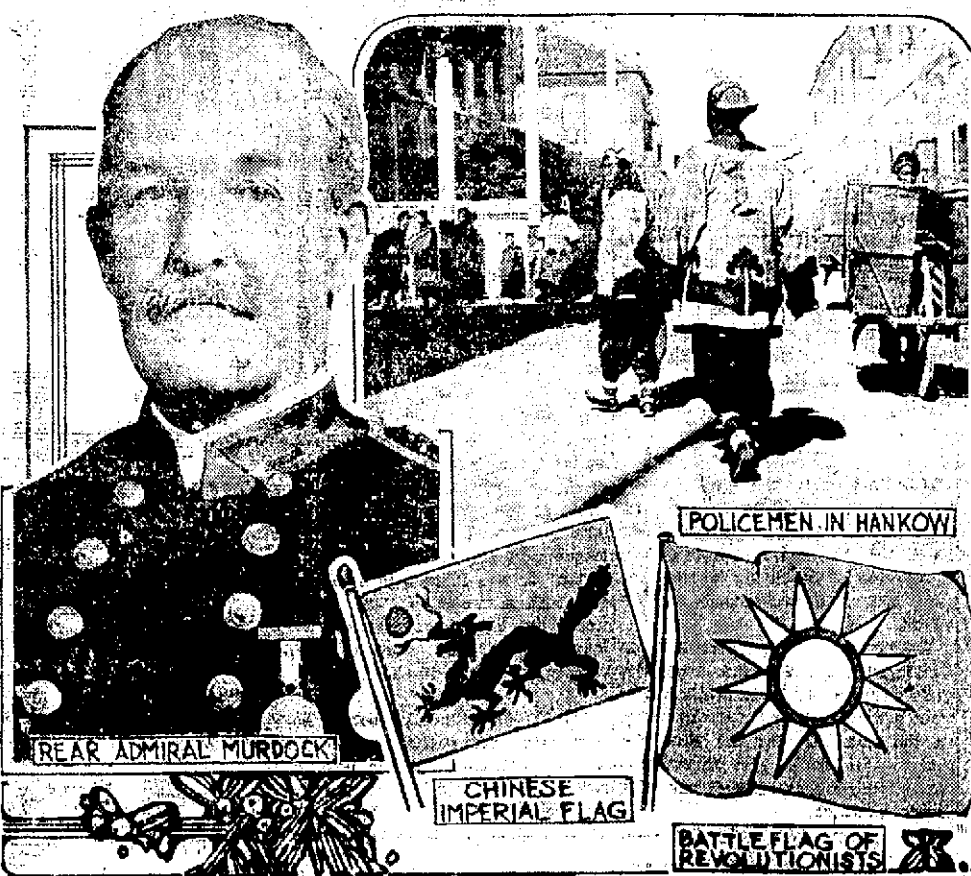

A Cincinnati divine says, "There is no God in Wall street." On the contrary, Wall street has a god and worships most devoutly at his shrine. The only difference between the faith of that thoroughfare and that of the rest of the world is one of name. Most people refer to their deity as Jehovah, Wall street's god is called Money.

## TWO GREAT QUALITIES.

There are two qualities in human nature that need to be cultivated by every one, and then all the industrial and domestic conditions will right themselves. These qualities are self-reliance and self-control. Unless a man would end all monopoly; self-control would enable every individual to direct his mental and physical energies toward the best use of life for himself and for humanity.

## THE DIVORCE EVIL

The large number of divorce cases that are to be heard at the present session of the superior court brings very forcibly to mind that the divorce evil is increasing each year, instead of diminishing. If this evil continues to increase as it has during the past decade it will only be a short time when silver wedding anniversaries, much less golden wedding anniversaries are a thing of the past. There is an old and true saying "that it takes two to make a quarrel" and it would seem to apply in this particular respect. Many of these unhappy marriages can be ascribed to the fact that the couple married young, in fact before either one of the parties hardly knew their own mind. This however is not the only cause as in many instances the husband is charged with absenting himself from the home or indulging too freely in the use of liquors. In the greater number of the cases the husband is named as the respondent in the divorce libel.

There are causes leading up to divorces that are never considered by the masses, that should be taken into consideration, if the evil is to be lessened. How many young women, who are married in early life understand the ethics of housekeeping or the cooking of wholesome food? These necessary accomplishments have been neglected for the dance hall, whisky parties, the women's clubs and other attractions.

There is one thing that appeals to the average man, no matter what his walk in life may be, that is good cooked food and a well kept home. When this state of affairs becomes more universal, it is safe to say that divorce libels will be fewer.

## BIRD'S EYE VIEWS

When hazing at Annapolis goes so far as to humiliate a student right before the young ladies cruelly reaches a point where a halt must be called.

Our esteemed contemporary, the Bladeford Journal has at last come asked by the judge to take their leave of the official designation of prisoner's dock. The local navy yard is "The Portsmouth Navy Yard." It still, however, jays in the Chicago "ike riot case to get the spirit of revenge out of

contains that it is located in Kittery which is quite correct.

Dr. Wiley's remarks on things in general pertaining to domestic and social economy indicate that he likes to stroll occasionally from the pantry into the library and drawing room.

It might have been better if these European powers could have arranged for the exploitation of Africa on the basis of a gentlemen's agreement.

It looks very much as if Richeson had spared the police the necessity of engaging Sherlock Holmes talent.

A street railway may at least be expected to avoid collisions with its own charter.

It is dollars to doughnuts that New Hampshire apples will get away with the lions share of blue ribbon at the New England fruit show in Boston.

Senator McCumber says that he is in favor of the arbitration treaties. It may be that when the record is made up it will be seen that the great achievement of the Taft Administration was the negotiating of these much-to-be-desired agreements. Apparently the President has gained two votes for them on his present trip not counting that of Mr. McCumber, who is a member of the hostile committee on foreign affairs. The Senator from North Dakota was in favor of the treaties at that time, but was absent from Washington when the committee made its report.

The army may have difficulty in keeping the commissioned roster full, but probably never has the material drawn from civil life, as compared to that provided by West Point and the ranks, been of better quality than at present. Of the nineteen Second Lieutenants just chosen nine are graduates of Annapolis, some of these being now in active service in the Navy, and the others are honor graduates of private military academies.

## AMONG OUR EXCHANGES.

### Very Likely To Happen.

Notwithstanding the fact that the highest legal tribunal in this commonwealth has sustained that regulation of the Boston & Maine railroad company which excludes dogs from passenger cars—incidental to which the public has been given the rule through newspaper reports—some "smart Aleck," to quote the vernacular, may be depended upon to rise in protest against such exclusion. Take the dog into the baggage car on payment of fare. Not much. Conductor and trainmen, equally with amused passengers, will be told, with all the emphasis that ignorance is so often able to command, that the dog is going to ride in the train, "ride with me, right in this seat, and don't you forget it." And something is likely to be said in condemnation of the "upstart official" or underling, who sits up nights, devising rules to annoy respectable passengers. Then will follow swinging of arms, a pawing of the air, repeated shakes of the head, and snorts of offended dignity. "You've harked up the wrong tree, this time. The dog stays here, I stay with the dog. There's no tie-up in the baggage car, and no fare paid for the dog." Unless the objector to the rule in restraint of the taking of canines into passenger cars differs strikingly from the general run of know-it-alls, there will be the usual declamation upon "rights" and "principles involved," and upon "courage to stand up in my boots, understand."

All this will be heard, and much more of the same stamp. The irate passenger, however, will be forced to roost low. When he gets through with the road or with its representatives, he will know a heap more. And the more he seeks a solace for injured feelings by comparing notes with such of the public as are willing to listen to his plaint, the more will he be made aware of public approbation of the rule as safe, sane and called for.—Salem News.

### The Defects in Our Jury System.

The faults in our system of trial by jury are again suggested by the long battle with which the McNamara trial at Los Angeles opened, over the acceptance of Talesman Nelson. In view of the possibility that this trial may last six months, it is not surprising that our best citizens are willing to be corrupt in order to dodge this irksome duty.

The phrase "trial by jury of this peer" sounds like trumpet, with a blast of triumphant democracy. But when you come to look over the average jury, you are often reminded of a story current among lawyers to the effect that a certain jury was taken off its high pedestal to acknowledge that the official designation of prisoner's dock.

If cost the county \$16,000 to get the local navy yard is "The Portsmouth Navy Yard." It still, however, jays in the Chicago "ike riot case to get the spirit of revenge out of

# FIFTY YEARS AGO TODAY

## Gleanings From Files of Portsmouth Chronicle

Portsmouth Navy Yard.—The machinery of the Kearsarge has been taken from the schooner which brought it, and safely deposited in the former; the work of fitting it is rapidly progressing. The contractors have a large gang of men employed, and we are informed that by the middle of December it will be ready for operation. After it is completed it will be tested by a trial trip, before its acceptance by the government.

Make It Even.—Messrs. Chronicle: Is it just or generous of Uncle Sam to pay workmen at the Navy Yard \$2.25 a day, and to pay soldiers, including their board and clothes, a dollar a day and more—while we farmers don't get that, though we work harder and fare as we can?

Do, Messrs. Editors, tell us why it is that the Naval constructor gets more than a good carpenter who works harder; why the carpenter gets more than the laborer who works harder still; why the commodore gets more than the porter of the Yard, and finally why Gen. Scott and the President get higher pay than private soldiers.

a few years ago, 1933 takersmen being examined. It is doubtful if a higher degree of justice was secured than under the ancient custom of picking the first twelve men who would swear to give a verdict according to law and evidence.

If a better type of men is to be persuaded to perform jury duty, they must have comfortable conditions. It is not enough to say that they are better treated than in England; where it is common to make them agree on their verdict in an unfurnished room unheated in cold weather, with nothing to eat or drink. Even under the more favorable conditions prevail in this country, there is a tendency to hustle the juryman about as if they were prisoners accused of crime. This does not tend to make work for a day laborer's pay more attractive to the business man or competent mechanic.

In some courts, as a part of the attempt to surround court proceedings with stately ceremonial, it is customary to make the jury deliver a standing while the jury delivers a charge of an hour or more. Why make an onerous duty any more burdensome by dusty red tape?

Many lawyers urge that jury work be done by professional jurors who should receive fair pay and who would become expert at sifting evidence. If the right type of men could be secured, it would no more need to imprison them like criminals than to lock up the judge.

Perhaps we could then get rid of influences like that which swayed a juror in a New York murder trial. He admitted afterward that he voted for acquittal because he did not like the way the assistant attorney treated the defendant's lawyer.—Manchester Mirror.

### Annapolis Hazing

The latest hazing episode at Annapolis differs from the usual affair of this kind in a particular that is rated as most important by the authorities. The first year cadets who were hazed were forced to go through certain absurd performances in the presence of two young women who were visiting in the quarters. The whole affair is altogether irregular. In the first place, the rules were violated in the presence of these fair intruders in the cadet quarters. Again their taunts induced the second class men who conducted the hazing to show their superior authority by making the plebes stand on their heads and do "No. 16" and other stunts of a humiliating and embarrassing character. Now the officials are after the young men who conducted the performance for the benefit of their guests, not because the plebes were hazed so much as because they were in the presence of women. Hazing, per se, it appears, is not a grave offense, but hazing in company is intolerable. The second class men can humiliate the plebes to their hearts content so long as they do not advertise the fact of their infinite superiority before the world.

In almost every instance of hazing at not merely the military and naval academies, but other institutions of education, the second year boys are the oppressors and the first year boys are the victims. It takes a full year to get the spirit of revenge out of

dieters and workmen who always go to town meeting? Agrarian.

The Boston Journal says:—"The liberal and praise worthy example of the workmen in the Portsmouth Navy Yard, in contributing the amount of one day's wages to the lid of the soldiers, has been followed by the sail makers in the Charlestown yard at the suggestion of Gen. Boyd, the Master workman. It is to be hoped that their action will be imitated by all the workmen in the yard, which would result in contributing about \$5,000."

Paymaster John A. Bates of Charlestown, who returned home from the coast of Africa in the sloop of war Portsmouth, a few weeks since, has been ordered to the receiving-ship Ohio.

There is to be a voluntary militia muster and parade near Barrington, on Tuesday, Oct. 29th, under command of Gen. Hoyt of Durham. About 1,000 men are expected to be in line on the occasion; and we learn that C. C. Horse Guards, Capt. Burleigh, of Great Falls and Portsmouth, and vicinity have voted to accept the invitation to fall in.

nature of the average student. Having been hazed and humbled himself as a plebe or yearling of freshman, he enters upon his second year with less thoughts for his studies than for his getting even with his former tormentors by abusing the boys who are in the class below him. Much has been said in behalf of hazing to the effect that it is wholesome discipline, for young students to "have the conceit taken out of them" by being forced to do all sorts of foolish things. Judging from results, however, the so-called conceit of the freshman is replaced by something even less desirable in the sophomore, a revengeful spirit, which is one of the meanest things in the human make-up. If a boy fights the one who has insulted him he is within his own rights, but when he takes advantage of an artificial distinction, and imposes upon an innocent third person he becomes a tyrant. There is mighty poor training for future usefulness or manhood in the system of pounding the underclassmen because the younger was once pounded himself by an upper classman.—Washington Star.

### Fashion and Women's Toes

A German professor warns American women that they will lose the little toe from each foot if they do not revolt from "the slavery of fashion" and wear larger shoes. Tight shoes, he argues, by deforming the great and little toes, retard the circulation; slower circulation means colder blood; colder blood is a reptilian characteristic. Ergo, the approximation of women to lizards.

The professor's anatomical stylism is ingenious, but the flaw in it consists in the fact that fewer women nowadays wear tight shoes than within a generation at least. Their feet have been emancipated as a result of their greater devotion to athletic sports, and at a recent convention of shoe-manufacturers it was announced that the average size of women's shoes had increased.

Nor is it likely that Nature would allow the complete atrophy of any of the toes even if fashion favored it. She shows herself loath to give up any part of the human mechanism. Having retained the vermiform appendix through the ages since man's ascent from the ape, it is impossible that she will ever dispense with even the smallest of the toes.—New York World.

### The World Over

How interesting the fresh young man becomes, when he sees a good looking girl, a stranger appear where he is "Watch him! And it is dollars to doughnuts the young woman has sized him up in two seconds and is all off.

Some women are quite content to live in such a little house that they can't swing a cat in it, while others want a small hall and a dozen rooms on the side, that tax the purse for coal to heat them. The woman who likes the little house doesn't patronize the doctor much.

Many a full grown man sometimes wishes he could get right down into the puddle and make plus the way he wants to do. The only thing that prevents is the high cost of living. In

that he can't afford to spoil a pair of trousers.

Some women do all things well. Even when a woman is washing clothes she may be accounted a Venus by those who look from a distance.

The rainstorm doesn't always beat in at three sides of the house, and when it does it is time to move, and move in a hurry.

If a man had to pay for all that he had in his dreams, he'd need more salary than his firm would be willing to pay him. That is one advantage of some dreams—that they are not all true.

Whenever a woman gets ready to look for a new house, she wants all the modern conveniences that she never had before, and everything else she can think of. Some people who never step into a bath tub are the most insistent for that utility.—Manchester Union.

## BITS OF SPORT

Sam Follansbee, who played baseball with Johnston of the Tri-State league all summer, arrived at his home in Haverhill about the middle of September. He had the most successful season of his career, leading his team in stolen bases, also sixth in the league, and finished with a batting average of .298 and a fielding average of .980. Soon after reaching Haverhill he commenced coaching the Haverhill football team, so as to be in good shape for basket ball. Last week he went out to Cohoes, N. Y., where he will play for two weeks in the Hudson River Basket ball league coming back to play the opening game in this city. This two weeks playing will give him the best kind of a workout and Sam will be there in the best of shape.

In less than a month from now basket ball will once more appear on the horizon of sports to take the place of the gridiron game. Basket ball has been becoming more unpopular in the later years, more for the reason that polo has been taken up by many schools and colleges in its place, while many colleges have abandoned basket ball entirely.

The Tiger A. C. of this city is scheduled to play the Mohawks in Manchester on next Saturday. The place for the game has not been decided upon, but the manager of the Mohawk team is endeavoring to make arrangements to have the game played in Varick park before the Manchester-Concord game. If unsuccessful the game will most likely be played at Derryfield park.

Colby Academy won the annual game with Brewster Academy at Wolfboro on Wednesday 11 to 5. Although there were a few fumbles, both teams played a fast game. An intercepted forward pass secured by Foster scored Colby a touchdown. The other touchdown was made by Foster on an end run. Captain Hale scored the only touchdown for Brewster after running up the entire field, being tackled just as he fell over the goal line. Brewster failed to kick a goal. Riley of Brewster was the star. Great plays were made by Hale, Willard and Sample.

Captain Larry Doyle of the Giants did not do any hitting to speak of in the first four games, but he certainly was on deck strong yesterday when he lined out four hits out of five trips to the plate, two of the hits being good for two bases. Now that Larry has found his batting eye he is likely to be heard from again this afternoon.

The Giants showed by that ninth inning rally yesterday that they are a game bunch of ball players, and now that they have got started they are likely to make things hum this afternoon. The team is a hard hitting aggregation, and the exhibition in the ninth inning yesterday was the first time during the series that the team showed anything like its real battling strength.

It seems as if Connie Mack should have pitched Eddie Plank yesterday against the Giants as the clever southpaw certainly merited another crack at the New Yorkers by the form he showed against the National leaguers in the second game of the series. It was Plank's turn to work, and with a two-game lead Connie would not have been taking a very long chance with such a reliable man in the points for his team.

For the first time this season Exeter went into secret practice yesterday afternoon and the field was cleared of spectators after the kicking contests were held. These resulted in Clifton B. Herd, a California boy, winning the cup for the best average in punting, and K. T. Luman, a Wyoming boy, for the best average and accuracy in drop kicking. In contestants were given three trials

## SENT TO THE STATE PRISON FOR FIVE YEARS

**James Rossi Guilty of Assault With Intent to Kill Officer Murphy—Criminal Docket Today.**

The first trial in the criminal docket today, James Rossi, while being arrested for a robbery in Superior Court, was called on Wednesday afternoon by County Sheriff. Rossi was charged with the assault on Officer Murphy, on Sunday evening, July 30, when the blade made a wound about an

inch over his heart. The jury after hearing the evidence, found Rossi guilty of assault with intent to kill. Rossi was immediately called for sentence by Judge Wallace, who sentenced him to not less than five years or more than eight years in the state prison. Albert Durent entered a plea of guilty to charge of breaking and entering the post office at Derry, and he was sentenced to one year in jail.

### SHOTS HIMSELF

Fred P. Harvey, fireman on B. & M. R. R. at Concord Hospital With Slight Hope.

Concord, Oct. 25.—Fred P. Harvey, a fireman on the Boston and Maine railroad, shot himself in his room this morning, and is now in the Margaret Pillsbury Hospital with only a slight chance for recovery. The bullet entered the head directly back of the right ear. About 10 years ago, it is said, Harvey tried to end his life by taking poison.

Harvey is about 60 years old, and has been employed as a fireman for 21 years. Capt. Moore took the revolver, which was 32 caliber, to the police station. One empty shell was found inside. On account of Harvey's condition no attempt has been made to probe for the bullet.

Late tonight Harvey was still unconscious. The victim has two sons, Albert W. Harvey, a traveling salesman for a Fitchburg, Mass., wholesale hardware firm, and Edwin W. Harvey of this city.

### DEMURRAGE MEETING

On Friday, October 27th, at 11:00 a. m., a mass meeting will be held at the Revere hall Mechanics building Boston, under the auspices of the New England states. The purpose of the meeting is to discuss proposed changes in the demurrage rules in New England and to urge the retention of the present Demurrage Committee. Shippers and representatives of organizations all over New England have been invited to attend.

Through the activities of the New England Demurrage Committee, demurrage matters have become more thoroughly understood in New England than in other parts of the country. The Committee has undertaken the dual task of educating railroads and shippers in their respective needs and of securing an impartial commissioner to administer the demurrage rules. Thus a matter which appeared in the beginning to be an irreconcilable controversy is gradually shaping itself into a movement forward in the way of co-operation in which New England has taken the lead over all other sections of the country, for there is now in Boston a Demurrage Commissioner, whose duty it is to make amicable adjustments between shippers and railroads of all disputes or misunderstandings arising with reference to car service questions.

High railway officials, as well as prominent shippers from all over New England, will address the meeting, and it is believed that each will recognize the desire of the other to co-operate to the end of so conducting the transportation business in New England as to remove friction, expedite movement and encourage industry. The speakers will be: C. S. Hamlin, former Asst. Secretary of the Treasury; F. H. Babbitt, Bellows Falls; E. H. Nickerson, Portland; T. E. Brynes, V. P., New Haven; J. H. Hustis, V. P., Boston & Albany; A. M. McGrillis, Providence; W. M. Brown, H. P. Hood & Sons; A. G. Duncan, Chairman Transportation Committee, Boston Chamber of Commerce; B. W. Porter, Pres., New England Box Co., and many other including representatives from New Hampshire and Connecticut not yet selected.

## KITTERY LETTER

Kittery, Oct. 26

The postponed harvest supper at the Second Methodist church last evening was the most successful affair of its kind held here for many a day. Fully two hundred people sat down at the tables between the hours of 5:30 and 7:30, and all did full justice to the appetizing food set before them. The tables were prettily set, and the menu consisted of the usual fare on such occasions. The supper was under the auspices of the Ladies' Aid Society and the Epworth League, and a large sum of money was realized for their labors. One pleasing fact was that nearly everything for the supper was donated by the members of the societies and the various groceries about the town, so that the expenses were practically nothing. In the evening ice cream, cake and home made candy were sold and the following program rendered:

Piano Duet, Cora Sterling, Mrs. Philbrick.

Banjo solo, Mr. Dean. Vocal solo, Mr. Dowdell. Ellen Bowden. Charlotte Bickford. Vocal solo, Mr. Dowdell. Banjo solo, Mr. Dean. Vocal solo, Mr. Sprague. All numbers were heartily enjoyed.

All members are requested to attend the meeting of York Rehearsal lodge this evening and participate in the "bean auction." They are also asked to bring some package to be auctioned off, the same to be so tied up that the contents cannot be guessed.

Mr. and Mrs. Thomas Ritchie of Commercial street are on a short visit to relatives in Northwood, N. H. Mrs. Joseph Jenkins is at North Kittery, where she is assisting in the care of her mother, Mrs. George Muchmore, who suffered a shock last Sunday, and is now in a critical condition.

Ralph Fernald of Cambridge, Mass., has been the guest of his parents, Mr. and Mrs. Warren Fernald of Rogers road for a few days.

Mrs. J. Wilson Hobbs of Wentworth street is restricted to the house by illness.

Mrs. Frank Call of North Berwick is in town for a few days on business. Mr. and Mrs. George H. D. L'Amour left Wednesday afternoon for Augusta, to attend the annual convention of the Maine Teachers' Association. Mrs. Pearl E. P. Chick and Miss Georgia Knight of the Wentworth school will also attend.

Mr. and Mrs. Victor Chase are visiting relatives in town.

Whooping cough still continues to claim new victims, and a large number of children are obliged to stay away from school on account of the same.

Miss Alma Blaisdell of York was in town Wednesday.

Miss Phebe Goodwin, who has been visiting in Belmont, Mass., arrives here today for a short visit with Mrs. Alexander Dennett, before returning to her home in Portland.

Miss May Brown of the Intervale is in Haverhill attending the annual meeting of the Rockingham Christian conference.

Piscataqua Chapter, No. 90, O. E. S. held a regular meeting last evening in Odd Fellows' Hall.

### Kittery Point

Justin Sawyer is enjoying a vacation from his duties as lineman on the A. S. Railway.

Equally as sure a sign of approaching cold weather as the flight of wild geese southward, is the arrival of the old schooner "Rozella" from the Cranberry Isles, Maine, which comes annual to load apples for those northern bearing districts. Although the "Rozella" first saw the light 71 years ago, she looks in better shape today than many vessels of a third her years.

Memorial services for Mrs. Martha J. Collins, widow of Capt. Robert Collins, were held at the Free Baptist church on Sunday afternoon. Rev. F. W. Churchill read an appropriate passage of scripture. Rev. Winifred Coffin gave a sketch of the life of the deceased. Selections were rendered by a quartet composed of Mr. and Mrs. Noah Emery, Emily Emery and Mrs. Joseph Moulton. The list of floral offerings follows:

Mrs. Frank Clarkson is spending purifies the blood.

the day with her mother, Mrs. H. G. Wentworth of Portsmouth.

Spray pinks, Mr. and Mrs. Jacob Fletcher.

Spray pinks, Mr. and Mrs. Fred Trethow.

Miss Ethel Moore of Melrose is the guest of Mr. and Mrs. Vernon Smith. Mrs. Frank J. H. Bee and sister, Miss Daisy Hanson, were visitors in Dover on Wednesday.

Charles Bede U. is hauling lumber from the Wilson lot to be used in the Hotel Chambers own extension.

Mrs. John Randall has returned from the Cottage hospital.

Dr. J. D. Carter is absent from town on business.

Mrs. Otis S. Shabee of Elliot, is visiting her sister, Mrs. Mary A. Wyman.

Mrs. H. G. Wentworth of Portsmouth spent Tuesday with her daughter, Mrs. Frank Clarkson.

Capt. Thomas Crawley has returned from Gloucester, Mass.

Mrs. Granville Berry is entertaining friends from out of town.

Frank Lawry has resumed work at the navy yard, after a vacation.

The five master Singleton Palmer, hence for a coal port, came to anchor several miles outside late Wednesday afternoon.

### Card of Thanks

We the undersigned, wish to thank all who in any way rendered assistance by word of sympathy or deed in our recent bereavement; also those for floral tributes expressive of esteem and love in whose name commemorated.

### OBSEQUIES

Mrs. Walter W. Goss

The funeral services of Mrs. Walter W. Goss was held at the Congregational church in North Hampton, Wednesday afternoon at 2 o'clock. The church was filled and many who desired to pay their last respects to the deceased, were unable to gain admission. Rev. Henry A. Barber, pastor of the Congregational church at Rye officiated and the Orpheus Male quartet of this city rendered "Beautiful Isle of Somewhere" and "Abide With Me."

Interment was in the family lot in Central Cemetery, North Hampton, under the direction of Funeral Director H. W. Nickerson. The following gentlemen acted as pallbearers, Charles Seavey, George Seavey, Chester Seavey, Fred A. Dow Carl Block, Harry Riley.

Myrtle Gardner

The funeral of Myrtle Gardner infant daughter of Mr. and Mrs. Charles Gardner, was held at her parents home on Bow street, Wednesday afternoon at 2 o'clock, Rev. W. A. James, pastor of the People's church officiating. Burial was in South Cemetery under the direction of Funeral Director H. W. Nickerson.

William T. Frost

### COLLEGES TO MEET

Hanover, Oct. 26.—The annual session of the Association of New England Colleges will be held at Dartmouth College Nov. 1 and 2, when most of the larger colleges will be represented either by president, dean or members of the faculty. Among the subjects to be talked over are the securing of proper newspaper publicity and the preventing of the improper kind.

Dartmouth will be represented by Pres. Nichols and Prof. Laycock, Harvard by Pres. Lowell, Yale by Pres. Benlon, Williams by Pres. Garfield, Brown by Dean Melklejohn, Tufts by Pres. Hamilton, Amherst by Pres. Harris, Bowdoin by Pres. Hyde, Boston University by Dean Warren and Clark University by Pres. Hall. A number of other deans and registrars will also attend.

Many ills come from impure blood. Can't have pure blood with faulty digestion, lazy liver and sluggish bowels. Burdock Blood Bitters strengthens stomach, bowels and liver, and purifies the blood.

# REBELS CAPTURE IMPORTANT CITY

## Chinese Revolution Spreading and Rebels Making Great Headway.

Shanghai, China, Oct. 25.—The cap-tured today that the insurgents ex-ture by the Revolutionists of Chang-shou to establish their headquarters, chou was announced in dispatches at Kiangsi, which probably will be which reached this city shortly after the Revolutionary capital.

noon today. From a strategic point. The probable attitude of Yuan Shi of view, this city should prove of Kai, whose "lame foot" prevented a great value to the Rebels. It is the entrance of the Government's con- junction of the Kaifung and Pekin mission to put down the rebellion, is Hankow Railroads and is located a subject of lively interest here. Yuan about 250 miles north of Sankow. It is everywhere regarded as the man of capture apparently cuts off from Pe- the hour in China. It is hinted here kin all the Imperial troops now gath- that he may be induced soon to give ered around Hankow and Wuhan. The Rebel cause his active support.

Today's news from the lower Yang- against the Manchu dynasty. tse valley was all discouraging to the Government. Although the Manchu officials here continue to give out false news of the disputed possession of the Rebels the state of affairs in Changsha, Kiu- Imperial fleet has retreated down kiang and other cities, in order of the river, some of the vessels being create an impression that the Imper- reported as far eastward as Wuan. ialists are still in control, the native Conditions are ominous not only in press in Shanghai and in cities Wuhu but also in Nanking. Most of throughout south China has bolted the Manchu officials have left these all censorship, and is printing the two cities and are crowding into most exaggerated reports of insur- Shanghai, where every ho'e is at- gent successes in all parts of the country. Apparently the Government ready filled with refugees.

The Taotai of Shanghai today be- officials are making no effort to en- came so alarmed over the possibility force the censorship.

Little stir. A few Manchu officials have been killed, but most of them have joined the Rebel cause.

Details of the transfer of Changshu to the Revolutionists were reported to the telegraph headquarters here by the operator in the city. "Please take notice," he said, "that the insur- gents have duly occupied this office." He said that he himself had joined the Revolutionists. The declared in- tention of the leaders, he added, was gradually to take over city after city, linking the various centers already in their possession, and thus push on to Shanghai.

They planned, he said, to re-estab- lish the telegraph lines as soon as possible and permit business to con- tinue under a provisional govern- ment, which they declared would have the sympathy and support of the entire country south of the Yangtse.

Trade conditions in Shanghai have improved somewhat. Commercial in- terests express complete confidence that no serious disturbances to busi- ness enterprises will occur. They point out that if the revolution is successful the Rebel leaders will en- courage legitimate commerce, while if the Imperial forces win, helpful reforms in government are certain to be put in force.

It is not believed that any massacre will be permitted in Shanghai if the native city is surrendered to the Re- bels. The Manchu officials will be al- lowed to return to the North unmo- lested. Foreigners are safe so long as they remain neutral. Any interfer- ence in behalf of the Manchus would undoubtedly arouse tremendous in- dignation.

# SANDFORD IS AGAIN ARRESTED

Durham, Me., Oct. 25.—Rev. Frank W. Sandford, leader of the Holy Ghost and Us Society, was arrested today at the Shiloh Hilltop by Deputy United States Marshal A. E. Stevens of Portland. It was understood that he was wanted in connection with the death of four of his followers from survey, due to insufficient provisions on board the Coronet, which ar- rived in Portland Saturday with a party of fifty-five Shilohites who had spent a year cruising on the Kingdom and Coronet in the West Indies and along the African coast.

Sandford was arrested on a war- rant containing two counts under special Federal statutes. The first was a statute that if any owner or master does any act or neglects to do any act whereby death is caused, he may be imprisoned for not more than ten years or fined not more than \$10,000, or both.

The second was under the provisions that any such owner or master withholding sufficient food supplies may be imprisoned for not exceeding five years or fined not ex- ceeding \$10,000, or both. It was charged that Sandford neglected to go into a port and thereby caused the death of Charles Hubbey of the New England coast, and that he failed to supply sufficient provisions for his crew and followers, although he had opportunity to do so. The other deaths were not mentioned in the warrant, which was issued following an investigation conducted by As- sistant District Attorney Arthur Chap- man of Portland.

The arrest of Leader Sandford was accomplished by Deputy Stevens within two hours of the time he ar- rived at the Hilltop and after he had made a search of the colony, which numbers six hundred people, and some of the buildings. He learned finally that Mr. Sandford had passed the night at the residence of Elder George E. Jewell and found him there shortly after eleven o'clock. He was formally placed under arrest and arrangements were made to take him to Portland. Driving in Mr. Sandford's famous rubber-tired buggy, which is never used except for the society's leader, they went away in haste to- ward Brunswick, where connections were to be made with electric cars to Portland.

# GIANTS WIN IN TENTH

GET TO COOMBS AFTER THE GAME WAS APPARENTLY ON ICE.

By a wonderful rally in the ninth inning the Giants pulled the fifth game in the World's series from the fire and by effective hitting in the tenth won the game from the Ath- letics.

The Athletics with Coombs pitching fine ball, had the Giants shut out until the seventh when they pulled one run and after that Coombs weakened and he was reached in the ninth and they he was not taken out. The Ath- letics apparently placed the game on ice in the third when with two men on bases O'Brien walloped out a home run.

The game today will be played in Philadelphia and should the Giants win, the deciding game will be played in New York tomorrow.

# WINTER WORK FOR THE BOY.

Way to Keep Him on the Farm is to Make it Profitable For Him.

Many farmers who do not feel able to pay their sons very high wages in spring and summer and who feel that the boys really do not earn more than \$10 or \$12 a month with their board have arranged matters so that the young men can in the winter make up for the apparently low wages of summer and make some money with- out taking it out of the family purses. Many men would like to send their sons to college and then set them up on farms of their own, but they are not financially able to do so, and even if they were it might be the worst thing possible for the boys. The best plan, as many fathers have found out, is to help the boy to help himself and keep him so busy and with so much money flowing into his pocket as to drive out all thoughts of deserting the farm, says the Country Gentleman.

Some may have taken up the plan of allowing their boys to take in flocks of sheep on shares, merely going security for them when necessary, but putting them beyond this entirely on their own resources. There is no surer way of building up a rundown farm or one not large enough to support much stock than by getting on a lot of sheep as winter boarders. The fer- tility counts year by year, and while the boy is kept out of mischief the farm is steadily growing in value.

Then there are other fathers who encourage the boys to take up winter work in the shape of teaching the dis- trict school, working in the barn of a neighbor who has much stock and lit- tle help to take care of it, buying poul- try for some dealer or any one of a dozen occupations that pay fairly well for a young man's time. Teaching the district school leaves little time to help with the farm chores, but the farmer is relieved of the worry of the boy wanting to leave the farm, and school will be out in the spring in time for the active farm work, so that what the boy makes is almost clear money.

Boarding town horses is another in- dustry open to boys and one that is not hard work. The feed must be bought and the horses given regular and intelligent care, but it doesn't take very long to look after a dozen horses and keep them in good con- dition. There is always the chicken business to fall back on, and an enter- prising lad can put in a winter flock that will more than pay for itself in eggs, and then can sell the hens for almost as much as they cost when spring comes. By picking up a few hens here and a few there at odd moments he can get a respectable flock and have a nice basket of eggs to market each week from the last of January until May.

It is easy to keep boys busy in win- ter on any farm, but not always easy to make the time profitable for them. It takes real courage on the part of the average father to give the son his whole time and board him free when he might be cleaning up the farm or helping him make money.

**APPLE BUTTER STIRNER.**

The cut represents an apple butter stirrer which is hard to beat. It is made of a wooden shaft about two inches thick and about three inches higher than the kettle with a crank about one foot long turned by a long pole or lath as shown in the cut. The shaft is held in place by a strip of board through which it passes. The board has a mouth at each end which fits around the kettle handle. At one end is an iron slide with a set screw to hold the board in place.—National Stockman and Farmer.

### CHARLES H. GROVER DEAD

Hampstead, Oct. 25—Charles H. Grover, aged 68, for many years in the shoe business here, died suddenly today morning at his home.

He was born in Quincy, Mass., but came to Hampstead when a child. At the outbreak of the Civil war he enlisted in Co. E, 11th New Hampshire Volunteer, and was detailed as provost guard at the headquarters of Gen. Potter.

He had served as commander of Henry C. Little Post of this town and for more than 20 years had served on the Memorial Day Committee. He is survived by two sons and two daughters: Charles H. Grover, Jr., president of the Haverhill, Mass., Board of Trade, Mrs. Cecil Mills of Old Town, Frederick S. C. Grover of Haverhill, and Miss Abby C. Grover, a teacher in Haverhill. The funeral will be held Friday at 2 o'clock.

## ITEMS OF INTEREST TO NAVY YARD EMPLOYEES

### Another One Gone

Under an order issued today by Rear Admiral R. F. Nicholson, acting secretary of the navy, the San Marcos, formerly the Texas, which has been used in naval tests and experiments, was stricken from the navy list.

### Died from His Injuries

Joseph S. Myers, fireman, first class who was scalded and burned when the tubes blew out of a boiler aboard the Tingey Sunday, died today of his injuries. He had been in the navy about four years and a half. His home was in Ashley, Mich., where his mother, Mrs. Myers, now lives.

### Will Soon Play Inside

The yard board will shortly discontinue the open air concerts for indoor work. The program today was of high class and is the following:

March, Bellevue, Carlton  
Overture, Barber of Seville, Rossini  
Selection, From D'orris, Cellier  
March, Knight of Liberty, Taylor  
Waltz, Blue, Margis  
Fantasia, 2 Hungarian, Tobani  
Overture, Jolly Robbers, Suppe  
March, Beat of the Drum, Hartz  
National Air.

### Payment for the Widow

The assistant comptroller holds that payment of the six months' gratuity provided by the act of May 13, 1908, may be made to an officer's widow, although she was not named as beneficiary. In this particular case in question the officer named his mother as the beneficiary while he was single, and added that in case she did not survive him he wished the amount to be paid to his sister. Before his marriage he notified the department of the death of his mother, and changed the beneficiary by

ordering that the money be paid to his executor. It has been held that an officer cannot designate his executor without specifically naming such person as beneficiary. As the last designation made by the officer would not hold, it is held that his communication revoking the payment to his sister should be honored, and the officer died without having designated a beneficiary. Under such circumstances the amount is ordered paid to his widow.

### May Convert to Training Ship

Rumors have it that either the Southey or Topeka will be later used as a training ship.

### Going to the Frigate

Sixty court martial men will shortly be transferred from the U. S. S. Southey and Topeka to the naval prison.

### Souvenirs from the Old Maine

Several of the yard workmen have been favored with souvenirs from the wrecked Maine in Havana harbor by the crew of the U. S. S. North Carolina, who were recently at that port.

### Vessel Movements

The Sterling left Key West for Tampa Bay.

The Oregon left Bremerton for San Diego.

The Patterson left Philadelphia for Newport.

The Cincinnati at Tiburon.

The Raleigh at San Francisco.

The Stringham at Hampton Roads.

The Albany at Shanghai.

### Discharged for Lack of Work

A discharge of ten in the machinery division outside machinists' crew and twenty from the boiler shop took place on Wednesday for lack of work.

Chapters, D. A. R., was held at the Universalist church today and the edifice was well filled. Following the reception the conference was called to order by the state regent, Mrs. Sarah F. Dearborn of Suncook, and the following program carried out:

### Much Wanted Italian Leaves Before Arrival of Sheriff

Anticipating a call from Sheriff Spinney, Sylvano DeMarco hurriedly left the Italian colony at the North and yesterday afternoon for Boston. His brief visit to relatives in this city was speedily terminated. Joseph Dinaldi is the complainant. Joseph, a venerable native of Italy, with whom fortune has not dealt too kindly of late told City Solicitor Samuel W. Emery, Jr., that when Sylvano was down to bargain he staked him by honoring his check. He retains the check, but has not seen the money.

Sylvano came to this city early in the year. He told of an account in a Massachusetts bank. He needed money. Joseph, cashed a check for \$80. Sylvano suggested that the check not be presented for payment until April 15, when sufficient deposits could have been made. Joseph presented the check to a Portsmouth bank. Payment was refused unless he would deposit a sufficient sum to meet the face of the check.

Joseph said that frequently since that time he has asked Sylvano for the money and that he has permitted himself to be stalled by stories of misfortune, pressing creditors and salary attachments. Sylvano returned to this city for a short time yesterday afternoon. Sheriff Spinney went into the Italian colony with a search warrant, but Sylvano left the city on an early afternoon train.
